WORST QUALITIES

Hi, my name is Sami. I am English. I have two or three things that I don't like about myself but I don't know what my worst quality is.

First of all, I don't have any patience. Sometimes, for example, when I am walking down the street, I feel frustrated by people walking slowly in front of me. It's funny but it is true.

Secondly, I am always late. I am always five or six minutes late. I know it's wrong but I am. Sometimes, my friends worry about me and they get angry because they have to wait for me but I am always late. I cannot do anything about it.
