

Video – level 2

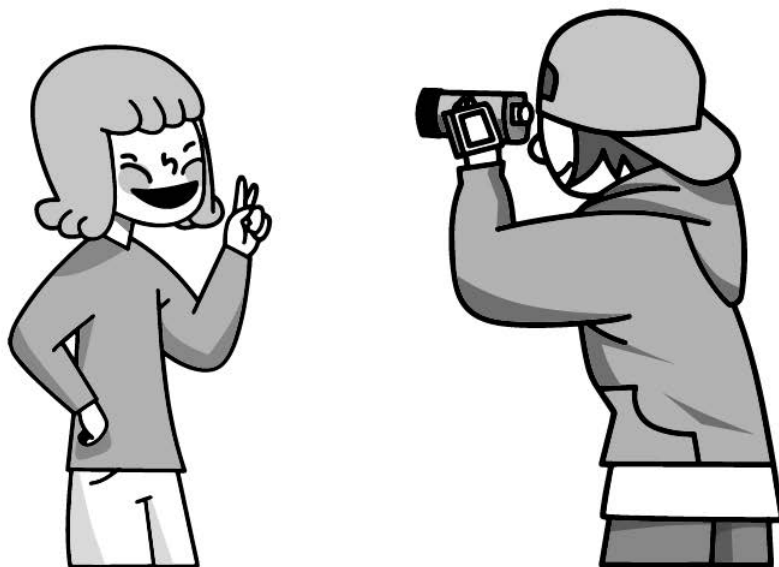

BEST FRIEND

Hello, my name is James. I am from England. I have two best friends, my brother Peter and Paul, a doctor from the hospital.

Peter is my best friend and my brother. I love him because he always listens to me. He is an intelligent guy. He is always happy. He lives in London because he is studying at university there. I phone Peter two or three times a week and we talk a lot.

Paul is my best friend too. He is a doctor and we work together in the hospital. He is tall and strong. He is very intelligent. He always helps me when I have a problem.

Peter and Paul are great!

Activity 1. Circle TRUE or FALSE
